## About Bonfring

Bonfring is a global consortium and flagship organization with the extensive verticals of Research and Development, International Journals, Conference and Conference Support striving for excellence in all aspects of technological advancements.

Bonfring is keen in providing support to the researchers in the form of Journals and Conference. Bonfring believes that future technology lies in the hands of intellectuals and hence we provide the right platform for the research scholars to disseminate their technological innovations to all corners of the world. Bonfring is interested in world class research activities which upgrades and updates the technical developments in the global research community.

## About ICEEM - 2015

International Conference on Evolution in Engineering & Management (ICEEM-2015) provides opportunity for academicians, students and researchers to meet and share their contributions to the Engineering & management profession, guide the future of the profession and find out the latest industry breakthroughs.

ICEEM-2015 aims to create a platform for research scholars to express and share their thoughts on innovative technological trends in Engineering & management science.

With the Global problem of ecological imbalance on the rise, ICEEM-2015 would like to spread awareness about protecting our environment for the future generations.

## Call for Papers

International Conference on Evolution in Engineering & Management (ICEEM-2015) is the premier forum for the presentation of new advances and research results either theoretically or practically in the field of Engineering & management science. The conference will bring together leading researchers, engineers and scientists in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

All areas of Civil and Architecture Engineering  
All areas of Electrical and Electronic Engineering  
All Areas of Mechanical Engineering  
All areas of Computer Science and Engineering  
All areas of Computer Software and Application  
All areas of Environmental Engineering, Water and Waste Management  
All areas of Information Technology, Internet and worldwide Web  
All areas of Management Science
