

## Advancements in Computing Technologies-2012

| S.No. | Paper ID   | Title & Author(s)                                                                                                                    | Page No. |
|-------|------------|--------------------------------------------------------------------------------------------------------------------------------------|----------|
| 01    | NTSACTPG01 | Application of DHT Protocol in IP Cloaking<br><i>Anju Vijayrania and Abdul Rahman</i>                                                | 01-06    |
| 02    | NTSACTPG02 | High Availability of Clouds: Failover Strategies for Load Balancing Algorithms Using Checkpointing<br><i>Dilbag singh</i>            | 07-11    |
| 03    | NTSACTPG03 | Enhancing Recommendation quality by Using GIM in Tag Based Collaborative Filtering<br><i>Shaina Saini and Latha Banda</i>            | 12-16    |
| 04    | NTSACTPG04 | Project Management Efficiency – A Fuzzy Logic Approach<br><i>Vinay Kumar Nassa and Dr. Sri Krishan Yadav</i>                         | 17-21    |
| 05    | NTSACTPG05 | Design of an Intelligent SMS based Remote Metering System<br><i>Sachin B.Mandlik and Suresh A. Annadate</i>                          | 22-25    |
| 06    | NTSACTPG07 | A Survey on Attack Graph Analysis for Network Security<br><i>Nilima R. Patil and Nitin N. Patil</i>                                  | 26-29    |
| 07    | NTSACTPG09 | Green Computing<br><i>Sachin G. Walunj and Prashant B. Jawalkar</i>                                                                  | 30-38    |
| 08    | NTSACTPG12 | Intrusion Detection(ID) for Database Management System<br><i>Apashabi C. Pathan</i>                                                  | 39-42    |
| 09    | NTSACTPG13 | Modified Efficient Zone Routing Protocol for MANET<br><i>Saurav Ghosh, Suman Gain and Chinmoy Ghorai</i>                             | 43-47    |
| 10    | NTSACTPG14 | Multi-Point Gesture Recognition Using LED Gloves for Interactive HCI<br><i>Ashwini Andhale, Manisha Ghunawat and Pallavi Jagdale</i> | 48-52    |
| 11    | NTSACTPG15 | Network Traffic Classification Using Machine Learning Approach<br><i>S.N.Bhadane and R.S.Mahajan</i>                                 | 53-56    |
| 12    | NTSACTPG16 | A Different Approach for Symmetric Encryption Algorithm<br><i>Shradha Singh, Smita Singh and Amit Singh</i>                          | 57-60    |
| 13    | NTSACTPG18 | Survey Paper on Cyber Threat: Botnet Behavior and their Detection Methods<br><i>D. N. Patil and D. A. Patel</i>                      | 61-63    |

|    |            |                                                                                |          |
|----|------------|--------------------------------------------------------------------------------|----------|
| 14 | NTSACTPG19 | Hardware Implementation of Speech Compression System Using LPC-2148 Controller | 64-65    |
|    |            | <i>Shrenik S. Sarade and D. G. Chougale</i>                                    |          |
| 15 | NTSACTPG20 | Review on RAP: Protecting Wi-Fi Networks from Rogue Access Points              | 66-71    |
|    |            | <i>Pranit S. Thakur and V. B. Patil</i>                                        |          |
| 16 | NTSACTPG22 | Visual Cryptographic Steganography in Images                                   | 72-75    |
|    |            | <i>Dongare Seema and Pawar Amruta</i>                                          |          |
| 17 | NTSACTPG23 | An Intelligent Web Recommendation System                                       | 76-80    |
|    |            | <i>U.H. Wanaskar and S.R. Viz</i>                                              |          |
| 18 | NTSACTPG24 | Grid Service Reliability Modeling Considering Fault Recovery                   | 81-85    |
|    |            | <i>S.M. Sabale and Pallavi Rahinj</i>                                          |          |
| 19 | NTSACTPG25 | Impact of 4G on Mobile Communication                                           | 86-91    |
|    |            | <i>Mohit Kumar, Priya Joshi and Ashish Jalota</i>                              |          |
| 20 | NTSACTPG26 | Improvement Over IPV4 Using IPV6                                               | 92-99    |
|    |            | <i>Mohit Kumar, Parmpreet Singh and Ashish Jalota</i>                          |          |
| 21 | NTSACTPG27 | A Novel Approach for Changeable and Privacy Preserving Biometric Verification  | 100-103  |
|    |            | <i>Angarika J.Jadhav, N.M.Shahane and Shital S. Bhandare</i>                   |          |
| 22 | NTSACTPG28 | Recognition of Periodic Sequential Pattern Using CMA Algorithm                 | 104-108  |
|    |            | <i>V.A. Kamble, S.P. Yadav and S.S.Mane</i>                                    |          |
| 23 | NTSACTPG29 | Emerging Trends in Information Retrieval                                       | 109-113  |
|    |            | <i>Kuldeep Jachak, Yabes Nadar and Pradip Ghorpade</i>                         |          |
| 24 | NTSACTPG30 | Demosaicking Images with Motion Blur                                           | 114-1116 |
|    |            | <i>Mosami P. Pulujkar and S.D. Apte</i>                                        |          |
| 25 | NTSACTPG31 | Pattern Matching and Identify Handwritten Digits                               | 117-120  |
|    |            | <i>Harish E.Khodke and R.R.Manza</i>                                           |          |
| 26 | NTSACTPG33 | Rule Based Intrusion Detection System (IDS) Using Decision Trees               | 121-123  |
|    |            | <i>Kishor P. Jadhav, Pravin B. Khatkale and Mukul V. Khasne</i>                |          |
| 27 | NTSACTPG34 | Detection of Fault Occurrences in Software System Using Design Patterns        | 124-127  |
|    |            | <i>Sale Vinayak Macchindra</i>                                                 |          |

|    |            |                                                                                       |         |
|----|------------|---------------------------------------------------------------------------------------|---------|
| 28 | NTSACTPG35 | Secured E-Learning Content on USB/HDD Device                                          | 128-130 |
|    |            | <i>V. K. Murthy, Rupesh Rathod, Nirajsingh Yeotikar and Ajinkya Deshmukh</i>          |         |
| 29 | NTSACTPG36 | Unifying Operating Systems                                                            | 131-133 |
|    |            | <i>Ronak Agrawal and Adesh Chordia</i>                                                |         |
| 30 | NTSACTPG37 | Web Based Remote Monitoring and Control System                                        | 134-137 |
|    |            | <i>Monita k. Shirsale and G. R. Gidveer</i>                                           |         |
| 31 | NTSACTPG38 | Policy Modeling and Analysis of Android Applications (AAP)                            | 138-141 |
|    |            | <i>P.A. Wankhade</i>                                                                  |         |
| 32 | NTSACTUG01 | A Review on Types and Sources of Network Threats                                      | 142-144 |
|    |            | <i>Aniket Subhash Pardeshi</i>                                                        |         |
| 33 | NTSACTUG05 | ELF Runtime Optimizer                                                                 | 145-147 |
|    |            | <i>Pradnya Khambekar and Sheetal Jondhale</i>                                         |         |
| 34 | NTSACTUG10 | The Greenest Up-Gradation of Educational System via Cloud Computing                   | 148-152 |
|    |            | <i>Satish Dhaytadk, Prashant Gadakh and Ganesh Choudhari</i>                          |         |
| 35 | NTSACTUG11 | Intrusion Detection on Data Mining Using Log Mining Approach                          | 153-155 |
|    |            | <i>Shirish Sathe, Atul Bangar, Prabhakar Balla and Apashabi Pathan</i>                |         |
| 36 | NTSACTUG13 | Interactive Voice Response System (IVRS) Based Voting System                          | 156-159 |
|    |            | <i>Swapnil A. Gavande, Mahesh U. Shankarwar, Sagar B. Varade and Bharat P. Pagare</i> |         |
| 37 | NTSACTUG18 | Location Based Authentication                                                         | 160-162 |
|    |            | <i>Shraddha D. Ghogare, Seema A. Shabadi and Swati P. Jadhav</i>                      |         |
| 38 | NTSACTUG20 | Platform Independent Server Communication Using TCP/IP Over Internet                  | 163-166 |
|    |            | <i>Supriya M. Jagtap, Dipali M. Dange and Apashabi C. Pathan</i>                      |         |
| 39 | NTSACTUG28 | Collaborative Web Data Extraction Using Unsupervised Method                           | 167-171 |
|    |            | <i>Pravin Katre, Vivek Deshpande, Priti Kadlag and Sonali Shinde</i>                  |         |
| 40 | NTSACTUG37 | 3-Layer Security in Cloud Computing Based On Private Face Recognition                 | 172-175 |
|    |            | <i>Yogeshwari Chaudhari, Supriya Mane and A.S.Devare</i>                              |         |
| 41 | NTSACTUG54 | Secure Mobile Based Voting System                                                     | 176-179 |
|    |            | <i>Nitin Salunke, Mahadeo Tonde, Ramnath Zinjurke and Yogesh Sahane</i>               |         |

|    |            |                                                                         |         |
|----|------------|-------------------------------------------------------------------------|---------|
| 42 | NTSACTUG62 | Spotting Outflow of Data for Guilty Agents                              | 180-183 |
|    |            | <i>Swami Mangesh. C, Fulse Sujit. J and Dhande Kundan. A</i>            |         |
| 43 | NTSACTUG72 | Swarm Intelligence Based Outlier Detection                              | 184-188 |
|    |            | <i>Pooja Kataria, Rekha Goud, Manasi Jahagirdar and Girish Kulkarni</i> |         |
| 44 | NTSACTUG73 | 3D Soil Fertility                                                       | 189-191 |
|    |            | <i>Bhushan .R. Shinde, Ishwar .M. Berad and Nilesch. M. Pilke</i>       |         |
| 45 | NTSACTUG74 | A Novel Algorithm of Human Iris Recognition                             | 192-196 |
|    |            | <i>Milind B Kadlag and Priti Chaudhary</i>                              |         |
